The Honorable Barbara Boxer
United States Senate
SH-112 Hart Senate Office Building
Washington, D.C. 20510

Dear Senator Boxer:

We are writing to express our support for your amendment to S. 2012, which would direct the Secretary of Energy to lead a federal review of the cause and the response to the natural gas leak at the Southern California Gas Company's Aliso Canyon Natural Gas Storage Facility.

The amendment importantly would direct Energy Secretary Ernest Moniz to lead an interagency task force, which would analyze the cause, responses to, and impacts of this natural gas leak and report back to Congress with its findings and recommendations on how to prevent and improve responses to such natural gas leaks and on whether to continue operations at Aliso Canyon and other facilities in close proximity to residential populations. The natural gas leak at the Aliso Canyon facility, which is adjacent to homes in the Porter Ranch area, began on October 23, 2015, and has resulted in numerous complaints of nausea, dizziness, vomiting, and other health problems from nearby residents. As of February 1, 2016, 4,530 households have been relocated from Porter Ranch with an additional 1,133 households in the process of being relocated.

Your leadership on this important matter is greatly appreciated.

Sincerely,

HILDA L. SOLIS

Dear Representative Sánchez:

We are writing to express our support for an amendment offered by Senators Boxer and Feinstein to S. 2012, which would direct the Secretary of Energy to lead a federal review of the cause and the response to the natural gas leak at the Southern California Gas Company's Aliso Canyon Natural Gas Storage Facility.

The amendment importantly would direct Energy Secretary Ernest Moniz to lead an interagency task force which would analyze the cause, responses to, and impacts of this natural gas leak and report back to Congress with its findings and recommendations on how to prevent and improve responses to such natural gas leaks and on whether to continue operations at Aliso Canyon and other facilities in close proximity to residential populations. The natural gas leak at the Aliso Canyon facility, which is adjacent to homes in the Porter Ranch area, began on October 23, 2015, and has resulted in numerous complaints of nausea, dizziness, vomiting, and other health problems from nearby residents. As of February 1, 2016, 4,530 households have been relocated from Porter Ranch with an additional 1,133 households in the process of being relocated.

Your assistance in establishing such an interagency task force would be greatly appreciated.

Sincerely,

HILDA L. SOLIS
